

Product no **AS16 3133-1ml****Arabinogalactan-3 (clone CCRC-M85)****Product information**

Immunogen	MeBSA-conjugated sycamore maple (<i>Acer pseudoplatanus</i>) pectic polysaccharide.
Host	Mouse
Clonality	Monoclonal
Subclass/isotype	IgM
Purity	Cell culture supernatant.
Format	Liquid
Quantity	1 ml
Storage	Antibody can be stored up to 1 month at 4°C, and at -80°C for up to 1 year. Make aliquots to avoid repeated freeze-thaw cycles. Please remember to spin the tubes briefly prior to opening them to avoid any losses that might occur from material adhering to the cap or sides of the tube.
Additional information	Exact working dilution needs to be determined by end user

Application information

Recommended dilution	Undiluted or at 1 : 10 (ELISA), (IF), (IHC)
Confirmed reactivity	<i>Acer pseudoplatanus</i> , <i>Arabidopsis thaliana</i> , <i>Solanum lycopersicum</i>
Predicted reactivity	Arabinogalactans from gum arabic, gum ghatti, and sycamore and tomato pectic polysaccharides
Not reactive in	No confirmed exceptions from predicted reactivity are currently known
